

„THE GHCF“
THE GLOBAL HOUMARD & CO. FOUNDATION

THE GLOBAL HOUMARD & CO. FOUNDATION established

Supporting Civil Defence and Humanitarian Aid on global State level.

Zug, Switzerland, February 27, 2017

In the presence of H.E. Dr. Vladimir Kuvshinov, Secretary General of International Civil Defence Organisation (ICDO), THE GLOBAL HOUMARD & CO. FOUNDATION (THE GHCF) has been founded in an extraordinary general assembly in Diepoldsau, Switzerland, in January 2017. The purpose of the foundation is to support Civil Defence and Humanitarian Aid with innovation on a global level. Accumulation and public donations will bring added value to charitable purposes. THE GHCF is the exclusive foundation to support ICDO.

Fabrice Houmard has been named Honorary President of the Foundation and Civil Defence and Humanitarian Aid deputy on global State level. Culturally open-minded Houmard is a young entrepreneur who established several start-ups and acts as motivational speaker („Hard work with heart work“). Furthermore, he is a member of supervisory boards, an interim manager and networker on government and business level. THE GHCF is the first privately founded and the only non-profit-foundation on

global State level to support ICDO. For the first time in its history, ICDO handed over its flag to such an institution – respectively to a private person – related to governments relations.

«Basically it is always the contact with people that makes life valuable», Houmard quotes German philosopher and diplomat Wilhelm von Humboldt during the founding assembly of the foundation.

It is now time to make sure that the ICDO projects for global Civil Defence and Humanitarian Aid get the attention they deserve, says Houmard, and adds: „Particularly nowadays it is of high importance to commit in this area to create stability for generations to come.“ Houmard calls out to potential donors to participate in the projects of ICDO via donor contribution and/or legacy to THE GHCF.

The projects will be administered by THE GHCF and will be realized with its partners, the ICDO-ICDSCA. THE GHCF commits itself strategically and in the long-term for the benefit of the population in need in the whole world.

The Safety of the Foundation is provided by abacon SICHERHEIT Ltd, namely President Thomas Roth and personal trainer, personal security officer Stefan Derrer, owner of S. Derrer LLC. Both corporations are collaborating for the Swiss confederation as well as for royal families. Both look back to a long-standing and trustworthy relationship with the President of the Foundation.

Houmard is about to form an award committee. The committee will propose personalities for the «HOUMARD & CO. AND ICDO-Award». The award will be handed out for outstanding commitments in the purpose of the foundation, Civil Defence and Humanitarian Aid.
